

**SELECTION OF SCIENCE DEPARTMENTS:** As much as possible, students are matched to professors who are working on research in which the student has expressed an interest. Please rank your top three preferences of the choices listed below. Use a "1" for your first choice, "2" for second and "3" for third. (Choose a total of three, not three in each category.) Although we cannot guarantee positions will be available in all of these fields, we make every effort to place students in their chosen areas. If you do not have a strong preference, just check up to six areas in which you would be willing to work.
